SUPPORT ACTIVITY (MCTSSA)
20250 VANDEGRIFT BLVD
OCEANSIDE, CA 92058

EVENT INVITATION

eTHOR is an integrated, electric, semi-autonomous mobile power station built by DANNAR coupled with high speed, low latency, and high bandwidth 5G capabilities developed by AWS. eTHOR's agility and traditional fuel independence, coupled with the ability to store, transport, and export power, support the dispersion and discretion of forces

A live eTHOR demonstration and testing are planned for 7 to 8 June 2023 at MARINE CORPS TACTICAL SYSTEMS SUPPORT ACTIVITY (MCTSSA), Camp Pendleton, and will test eTHOR functionality within a variety of military vignettes. Data gathered will be used for continued modeling, simulation, and analysis, creating digital environments that synthesize the results of innumerable iterations of experimentation. The demonstration and testing event will support validation.

eTHOR DEMONSTRATION SCHEDULE

Day 1 - June 7th, 2023

0900-1145

eTHOR Brief

Command Center Classroom

1300-1500

Tactical Demonstration

DAY 2 - June 8th, 2023

Special Invite Only

0900-1600

EVENT RSVP

A response is required immediately.
